How to Resolve the Claims Reject Edit 00431 for CAP Providers

Overview

North Carolina operates several programs to provide home and community care as a cost-effective alternative to institutionalization. This program is called the Community Alternatives Program (CAP). The programs have allowed those who otherwise would be institutionalized to remain with their family in familiar surroundings. All of these benefits accrued at a cost-saving to Medicaid in comparison with the cost of institutional care. There are four variations of the CAP program.

– Community Alternatives Program for Children (CAP/C)
– Community Alternatives Program – Choice
– Community Alternatives Program for Disabled Adults (CAP/DA)
– Community Alternatives Program for Mentally Retarded/Developmentally Disabled Individuals (CAP/MR-DD)

These various programs are otherwise known as “waiver” programs because standard program requirements are waived to allow the program to operate. These waiver programs provide some services that otherwise are not covered under Medicaid.

In order to bill for CAP services on a claim, the provider’s profile must specifically list the appropriate taxonomy code as well as the applicable CAP service or endorsement. If the CAP service has not been added to the provider’s profile in NCTracks, the claim will reject with error code 00431 PROCEDURE CODE IS NOT COVERED BY THE ASSIGNED BSG FOR THE DATES OF SERVICE

This user guide provides step-by-step instructions for adding CAP services to the provider profile in NCTracks.

Status and Management Sections

1. **Submitted Applications:** Contains enrollment applications or change requests that have already been submitted and are currently in process.

2. **Saved Applications:** Contains enrollment applications or change requests that have been started but not yet submitted. Please remember that your application must be submitted to the State within 90 days of the date it was created. If not completed within 90 days, the incomplete application will be deleted.

3. **Re-enroll:** This section will list provider accounts associated with the user’s NCID that have been terminated. The user can select the account to re-enroll, then click ‘Submit’.

4. **Manage Change Request:** This section will list provider accounts associated with the users NCID that are active.

5. **Re-verification:** This section allows the user to submit a required re-verification application for a provider enrollment account.

6. **Maintain Eligibility:** This section allows the user to submit a required maintain eligibility application for a provider enrollment account.

7. To begin a new **Manage Change Request**, under the **Manage Change Request** Section, click the radio button next to the NPI to be changed. Next, click the **Update** button.

If the Manage Change Request section reads **No Data to Display**, it is possible that a Manage Change Request has already been created and/or submitted, but not yet approved. Check the **Submitted Applications** and **Saved Applications** sections for a Manage Change Request/Enrollment that is already in process.

Adding Services and Endorsements

10. The following screen will display. The checkmark icon in the Select column indicates the service location to be edited. To select a different location, click the radio button next to the applicable location. Otherwise, click the Edit Location button to edit the selected location.

The following screen will ONLY display for those organizations that have added specific taxonomy codes that require specific services and/or endorsements. If this screen does not display, it is recommended that you review the taxonomy codes on your profile and add the necessary taxonomy codes.

These steps must be repeated for each taxonomy code assigned to each service area.

12. CAP service options will display for those taxonomies that apply to CAP.

- **NEW** indicates that CAP services have not yet been added to the taxonomy.
- **Active** indicates that the service has already been added, and is active.

Click the **Add** icon next to the status column, to add that particular service to the taxonomy.

13. The following **Begin-date Info** screen will display. Select the **New Begin Date** and click the **Save** button to save the changes.

![Figure 12: Select Begin Date](image)

The new begin date CANNOT be dated prior to the date of the taxonomy or physical address. For example, if you have added the taxonomy code or the physical address today. You will need to select today’s date for the CAP service. If you attempt to date the service prior to the date of the Taxonomy code or the physical address/service location, you will receive the following error message.
