Before You Begin

Before you begin the application process, it is important that you ensure that you meet the program requirements and qualifications. Specific qualifications for each provider type are listed in the Provider Permission Matrix located under Quick Links on the NCTracks Provider Enrollment page.

The enrollment application is completed online via the NCTracks provider portal. To login to the provider portal you will need a NCID. Reference the “Getting Started” page of the portal for additional information.

If your taxonomy requires one or more of the following accreditations, please have a copy of this accreditation available before you begin the application process, as you will need to submit proof of the accreditation to NCTracks. A copy can be attached to the application or it can be faxed/emailed/mailed to NCTracks separately.

- CMS letter of approval verifying Medicare participation.
- Durable Medical Equipment (DME) providers must submit a current copy of the National Clearinghouse Supplier letter from CMS verifying Medicare participation (cannot be more than 3 yrs from the date of approval indicated on the letter).
- Nurse Practitioners must submit a copy of the Nurse Practitioner (NP) certification. Per 21 NCAC 36. 0805 (a) “Nurse practitioners with first-time approval to practice after January 1, 2000, shall provide evidence of certification or recertification as a nurse practitioner by a national credentialing body. NPs licensed prior to January 1, 2000 did not have to be certified by a national credentialing body.
- Independent Laboratory providers must submit a copy of CLIA certification

If you answer “Yes” to any of the exclusion/sanction questions, you must also submit the required documentation applicable to the question. Failure to disclose exclusion, sanction, penalty or criminal convictions may result in the denial of your application.

This information can be provided by attaching the documentation to the application or by faxing/emailing/mailing the information to NCTracks. For faster processing, it is recommended that you attach the documentation directly to the application.

If you choose to fax, email or mail this documentation to NCTracks, you MUST include the NPI on the fax cover sheet, within the document, or in the body of the email to ensure that the additional information is correctly routed.

Overview
This user guide provides step-by-step instructions for completing the enrollment application for an organization or group provider using the NCTracks provider portal.

The enrollment process includes credentialing, endorsement, and licensure verification to ensure that all providers are in good standing in the community.

A $100 NC Application Fee is required from individual providers if active in Medicaid and/or North Carolina Health Choice.* A $100 NC Application Fee is also required per tax ID from organizations and atypical organizations if active in Medicaid and/or NCHC. The $100.00 fee is required for initial enrollments, re-enrollments and every three years when providers complete the recredentialing process.

The application fee will be collected per site location prior to submitting an initial enrollment or reenrollment application. Initial enrollment is defined as an In-State or Border-Area provider who has never enrolled for participation in the N.C. Medicaid/Health Choice* programs.

The Affordable Care Act (ACA) requires that a fee be collected from certain Medicaid and N.C. Health Choice (NCHC)* providers to cover the costs of screening associated with provider enrollment processes. The federal application fee changes by calendar year (CY) and covers the costs associated with screening. To see the current federal fee, please download the Federal Fees & NC Enrollment Fees by Year spreadsheet, located under Quick Links on the Provider Enrollment page. Additional information about the federal fee can be found on the Federal Fee and NC Application Fee FAQs page.

DHB cannot provide special consideration for processing of enrollment applications due to provider error, incomplete information, or due to a delay in obtaining credentialing, endorsement or licensure information from another agency.

Providers are not guaranteed a retroactive effective date and are strongly encouraged to provide services only after they are enrolled as a Medicaid and/or Health Choice* provider. However, DHB will consider specific requests for retroactive effective dates if a recipient has been granted retroactive eligibility, an emergency service was provided, or medically necessary services were rendered and the provider's credentials, licensure, certifications, etc. were active and in good standing for the earliest requested date of service.

*NC Session Law 2022-74 eliminates NC Health Choice and moves beneficiaries to Medicaid. Effective April 1, 2023, Medicaid is the only NC DHHS health plan offered by DHB. As needed, you may enroll in NCHC to cover prior dates of service, but your participation in the NCHC health plan will end effective April 1, 2023.

**Change of Ownership**

If you have completed a change of ownership for a provider record, and you received a new NPI, you will need to complete a new enrollment for the NPI. If you did not receive a new NPI, you will need to complete a manage change request to update the update the record as needed.
NOTE: Changes to the provider name or EIN cannot be completed via a Manage Change Request. Please submit the legal documentation regarding the change to NCTracks so the information can be updated.

An agent is defined as any person who has been delegated the authority to obligate or act on behalf of a provider. This may include managing employees, general managers, business managers, office managers, administrators; Electronic Funds Transfer (EFT) authorized individuals, individual officers, directors, board members, etc.

All applicable adverse legal actions must be reported, regardless of whether any records were expunged or any appeals are pending. For questions regarding whether the question applies to the provider, owner or agents, or other questions about how each sanction question should be answered, it is recommended that you contact an attorney.

For each question answered yes, you must submit a complete copy of the applicable criminal complaint, Consent Order, documentation, and/or final disposition clearly indicating the final resolution. Submitting a written explanation in lieu of supporting documentation may result in the denial of this application.

Failure to provide the necessary supporting documentation may result in the denial of the application.

Basic Enrollment Application Types
Below is a description of the most common basic enrollment application types. Please reference the image on the next page for a full list of application options and their descriptions.

**Individual:** An individual provider enrollment should be completed if the provider is a person who will be affiliated with an organization or may bill independently for services. When completing the Individual Provider Enrollment application, you will be given the opportunity to also enroll as a Primary Care Provider (PCP) in the CCNC/CA program if your provider type qualifies you to be a PCP.

**Organization:** An Organization is an entity, facility, or institution that may be an affiliation of individual providers. When completing an Organization Provider Enrollment application, you will be given the opportunity to also enroll as a PCP in the CCNC/CA program if your provider type qualifies you to be a PCP.

**Group:** A group is considered a business entity under which one or more individuals practice. A group does not require multiple professional providers. A single provider group is a valid group and would be identified by the business entity name, for instance - John Doe, PC. If you are a single provider operating as a group, DO NOT enroll as an individual. Instead, select “Organization” as the application type.

**Atypical Organization:** As defined by CMS, Atypical providers are providers that do not provide health care, as defined under HIPAA in Federal regulations at 45 CFR section 160.103. Taxi services, home and vehicle modifications, and respite services are examples of atypical providers reimbursed by the Medicaid program. Even if these atypical providers submit HIPAA transactions, they still do not meet the HIPAA definition of health care and therefore cannot receive an NPI.

**Billing Agents and Clearinghouses:** Third party entities or businesses that submit information directly to NCTracks as the NC DHHS Fiscal Agent on behalf of an enrolled provider.
