1.0 Welcome

1.1 OVERVIEW

This user guide provides step-by-step instructions for completing the enrollment application for an individual provider using the NCTracks provider portal.

The enrollment process includes credentialing and licensure verification to ensure that all providers are in good standing in the community.

A \$100 NC Application Fee is required from individual providers to be active in Medicaid. The \$100 fee is required for initial enrollments and every five years when providers complete the re-credentialing process.

Note: Providers are encouraged to pay special attention to their full legal name, social security number and date of birth. Submitting applications with inaccurate or invalid data – especially in these fields – can cause the application to be withdrawn and/or increase processing time. If the application is withdrawn, a new application must be submitted with the correct information and will require all appropriate application fees to be paid again.

1.2 BEFORE YOU BEGIN

Before you begin the application process, it is important to ensure that you meet the program requirements and qualifications. Specific qualifications for each provider type are listed in the Provider Permission Matrix which can be found under Quick Links on the [Provider Enrollment page](#).

The enrollment application is completed online via the NCTracks provider portal. To log into the provider portal you will need an NCID. Reference the [Getting Started page](#) of the portal for additional information.

Important Announcement
NCTracks Multi-Factor Authentication (MFA) Updates Coming Soon for Individual & Business Users

In accordance with the [North Carolina Identity Management \(NCID\) Citizen Identity Project](#), NCTracks is changing the User Login process and implementing Multi-Factor Authentication (MFA) updates. Please complete the following steps to update your NCID profile by **Sept. 6, 2024**, in advance of the MFA updates:

These instructions are for Individual and Business users only, not Local and State Government users.

1. Login to the MyNCID portal at <https://myncidpp.nc.gov/> with your NCID Username and Password.
2. You will see the Profile Information page upon successful login.
3. Click on the **MFA** tab on your profile page.
4. Click on the **ADD ENROLLMENT** button on the bottom right.
5. A pop-up window will appear prompting you to choose an MFA method. Please note that office phone extensions are not supported.
6. Follow the onscreen prompts to add your chosen MFA method.

For detailed instructions, including images of each step, refer to the [NCID User Guide for MFA](#).

Important Note: Providers who do not currently use MFA will not be impacted at this time. MFA updates will be implemented through a phased approach. Until that time, your current login method will continue to work. However, you are being asked to update your profile to ensure a seamless transition to the new MFA method. You will receive further communication when your MFA is to be updated.

If you are an Individual or Business User who currently uses MFA, these updates will impact you on Sept. 15, 2024. Once these updates are implemented you are no longer required to access and maintain MFA using <https://mfaportal.nc.gov/nctracksmfa>. All profiles, including MFA, will be managed through <https://myncid.nc.gov/> after implementation.

If you encounter issues during login or authentication, please contact the Department of Information Technology (DIT) helpdesk at **919-754-6000** or **800-722-3946**.

For more information and training videos, visit the [NCID Citizen Identity Project | NCCIT training page](#).

2.26.3 Status Management Page

This page displays categories of applications. The “Status” column of the **Submitted Applications** section may also provide hyperlinks to allow the user to upload documents, withdraw applications that are still in review, or review notification letters if the application has been returned due to additional information being required. Notification letters will be available for review from the Status Management page as well as the Message Center inbox. Notification letters for initial enrollment applications will only be delivered to the OA’s e-mail address.

If the information (Name, DOB, SSN or EIN) submitted on the application is incorrect and does not match our findings during the background check, NCTracks will return the application and send the OA an Application Incomplete letter. When the **Returned** hyperlink is selected, the provider will be redirected to the Application Incomplete letter, which will contain details of the incorrect information received. After reviewing the incorrect information indicated in the letter, if the provider agrees that the information is incorrect, the OA should navigate to the Status

Management page and withdraw the application. The provider may also respond to the Application Incomplete letter advising that the information is incorrect and requesting NCTracks to withdraw the application. If NCTracks withdraws the application, the Application Withdrawal letter is sent to the Message Center inbox. Withdrawal letters for initial enrollment applications will be sent to the OA’s e-mail address.

Applications withdrawn by NCTracks or the provider will have a “Withdrawn” status in the **Submitted Applications** section. NCTracks-withdrawn applications will always be accompanied by a withdrawal letter. Providers do not receive correspondence when the withdrawal is completed in the Provider Portal.

Note: While inaccurate data is the example provided for the application withdrawal process, a provider can withdraw an application for any reason deemed necessary.

Appendix A. Enrollment Application Types

Individual: An individual provider enrollment should be completed if the provider is a person who will be affiliated with an organization or may bill independently for services. When completing the Individual Provider Enrollment application, you will be given the opportunity to also enroll as a Primary Care Provider (PCP) in the CCNC/CA program if your provider type qualifies you to be a PCP.

Organization: An Organization is an entity, facility or institution that may be an affiliation of individual providers. When completing an Organization Provider Enrollment application, you will be given the opportunity to also enroll as a PCP in the CCNC/CA program if your provider type qualifies you to be a PCP.

Atypical Organization: As defined by CMS, atypical providers are providers that do not provide health care, as defined under HIPAA in Federal regulations at 45 CFR section 160.103. Taxi services, home and vehicle modifications, and respite services are examples of atypical providers reimbursed by the Medicaid program. Even if these atypical providers submit HIPAA transactions, they still do not meet the HIPAA definition of health care and therefore cannot receive an NPI.

Billing Agents and Clearinghouses: Third party entities or businesses that submit information directly to NCTracks as the NC DHHS Fiscal Agent on behalf of an enrolled provider.
